## WHAT WE HELP YOU BUILD

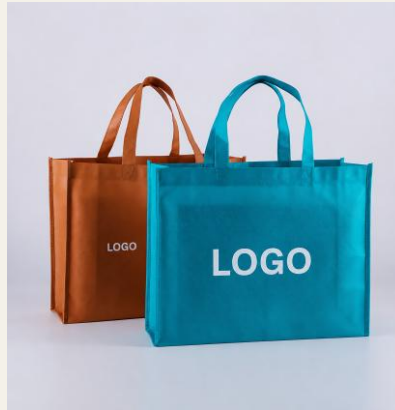

# Bags built around your use, brand and buying process.

We turn an initial idea into a production-ready specification that can be sampled, produced and delivered.

### RETAIL & LIFESTYLE

Reusable totes, branded merchandise and store packaging.

### EVENTS & PROMOTION

Campaign bags, conferences, giveaways and corporate programs.

### WHOLESALE & PACKAGING

Adaptable formats for recurring ranges and customer projects.

## What Tanqu coordinates

### BRIEF

Clarify use, quantity and priorities.

### SPEC

Translate ideas into workable product details.

### SAMPLE

Coordinate development and feedback.

### PRODUCTION

Follow approved specifications and key milestones.

### FOLLOW-UP

Track production, packing and delivery.

### CONTINUITY

Keep records ready for repeat orders.

Supported by 15+ years of B2B commercial, project coordination and stakeholder communication experience.

# Canvas bags for everyday use, retail and branded programs.

Choose the format first. Material weight, size, structure and artwork are then confirmed around the project brief.

## Everyday tote

Simple, print-ready and adaptable for short or long handles.

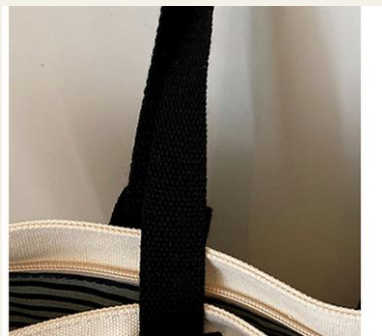

## Carry-all

Larger formats and project-specific construction options.

## MATERIAL

## HANDLE

## ZIP & LINING

## Common development options

- Natural or dyed canvas
- Short, long or contrast handles
- Screen print, transfer or embroidery\*
- Flat or gusseted body
- Pocket, zipper and lining options
- Individual and bulk packing options

\* Subject to artwork, material and sample confirmation.

# Non-woven bags for promotion, retail and repeat-order programs.

A cost-conscious format with flexible construction and print routes, selected according to use, artwork and order volume.

RETAIL & LIFESTYLE

## Printed non-woven formats

High-impact patterns and branding on structured reusable bags. Final material and print method are confirmed per project.

### STITCHED TOTES

Flexible size, color, handle and print choices.

### GUSSETED SHOPPING BAGS

More capacity for grocery, events and retail packaging.

### LAMINATED / FULL-COLOR

For higher-impact graphics, subject to material and artwork review.

*Material weight, construction, minimum quantity and lead time are confirmed against each individual brief.*

# More than placing a logo on a standard bag.

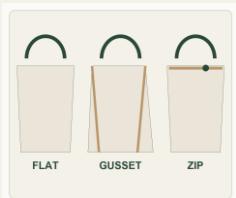

We structure the brief across five linked decisions, so the design is clearer before sampling starts.

01

## MATERIAL

Canvas, cotton, PP non-woven and laminated options are reviewed around use and budget.

02

## STRUCTURE

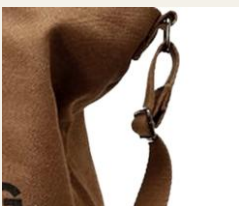

Size, proportion, gusset, pocket, zipper, lining and handle format.

03

## PRINT

Artwork position, color count and suitable print route are confirmed before sampling.

04

## TRIMS

Strap, reinforcement, label, hardware and finishing details.

05

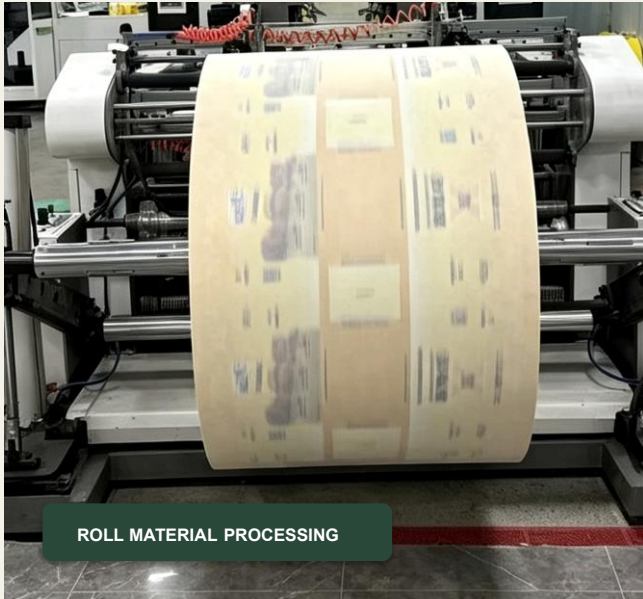

## PACKAGING

Components, individual packing, carton setup and shipping marks are confirmed before dispatch.

FINAL CONSTRUCTION IS LOCKED THROUGH CONFIRMED SPECIFICATIONS AND SAMPLE APPROVAL.

# Processes and equipment behind each order.

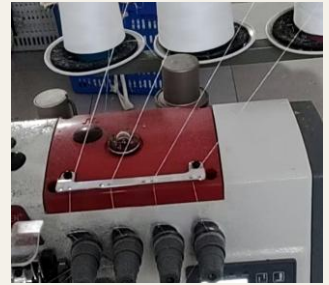

The production route is aligned with product structure, material, artwork and order requirements.

ROLL MATERIAL PROCESSING

ROLL WINDING

OVERLOCK FINISHING

SEWING & ASSEMBLY

WIDE-WEB MATERIAL PROCESSING

WAREHOUSE HANDLING

Production planning, equipment and key quality requirements are confirmed against the approved specification for each order.

*From roll-material processing and sewing to finishing and warehouse handling.*

## Clearer requirements. Smoother execution.

Tanqu (碳趣) is a custom bag brand of Tanqu Future (Chengdu) Energy Technology Co., Ltd.

We provide custom canvas, non-woven, drawstring and insulated bags for overseas brands, importers, wholesalers, distributors and promotional product companies.

Tanqu Future (Chengdu) Energy Technology Co., Ltd. focuses on carbon neutrality, sustainable development and ESG. This perspective informs our interest in more responsible materials, clearer sourcing and practical sustainability.

**We make custom requirements clearer, the buying process more efficient, and delivery easier to manage.**

### SPECIFICATION CLARITY

Organize requirements, choices and artwork before sampling.

### COMMERCIAL COORDINATION

Keep communication and key decisions in one place.

### EXECUTION CONTINUITY

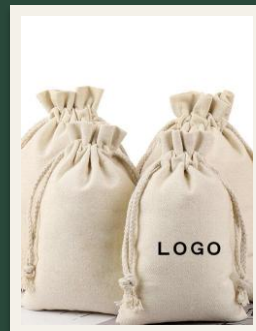

Carry approved details through production, packing and delivery.
